

## How to fix the facade plate?

1. Make sure that the surface is clean, dry and free of dust and grease.

2. Prepare the plate by placing two double-sided outdoor tapes to keep the plate in place when mounting.

3. Remove the protection film from the double-sided tape.

4. Apply a strip of "high tack" adhesive of professional type in the centre of the plate.professionnel (exemple : Soudal).

5. Apply the plate to the intended location, ensuring that it is centred and plumb.

6. Plate mounting kit.

The result :
